

CONTROL

In-room panel

DEVICE DESCRIPTION

CONTROL panel is designed for cooperation with selected controllers of DK System company. Information whether the controller cooperates with the control panel CONTROL can be found in the Product Data Sheet.

DEVICE HAS THE FOLLOWING FEATURES:

- constant overview of the temperature measured by a regulator
- indication of the central heating pump operation
- sound alarm indicating the over temperature
- remote change of the desired temperature
- signalling of other parameters, depending on the controller, which actually supports the panel
- communication cable included (10 m)

TECHNICAL DATA	CONTROL
Display range of temperature	from - 9 °C to + 99 °C
Temperature range of audio signal	from + 50 °C to + 99 °C
Rated voltage	8V - 12V
Relative air humidity	< 95 %
Protection class	IP 40
Insulation class	II
Dimensions	106 x 65 x 20 mm
Fixing centres	60 mm
Ambient temperature	from 0 °C to + 40 °C
